Hello,

Per the email that just went out, I'm sending meeting invites for the RCP discussions.

Focus of Session 3 is Subpart J and other issues. Subpart J defines how chemical countermeasures can be used in R8. In short, these must be reviewed and authorized by the RRT on a case-by-case basis. This has long been R8 policy but the RCP language is newly written for the RCP.

Please plan for discussion around whether this language is acceptable and how we can conduct outreach to educate others. We'll also use this session to work through other issues that arise or resolve questions from previous sessions.

See Adobe Connect and teleconference information below.

Thanks and we look forward to talking with you!

Gina
